

God's Shifting Process ... Part 1

Mike Mathews

Over the next few months I will be writing on the reality that a very real exchange process is happening before our eyes and that this exchange process will continue as well as intensify.

Many people are perplexed with the exchange or shift of events that have taken place in the world during the past few years. The reality is that God's Word gives a vivid forecast that major shifts and exchanges will take place before His second return. God's forecast is playing out right before our eyes as we witness the alarming rate at which things are shifting.

Unfortunately many people are not accustomed to the shifts and changes, and/or do not give God the credit for the shifts. Rather they blame the shifts on the economic times, politics, or other circumstances. The present shifts and changes are only the beginning of on-going and increasing shifts that God has allowed during the time He is shaking and shifting the world (Hebrews 12:26-28). Some people continue to use the saying '*Things will bounce back,*' but the reality is that things can't go back to their original state when these types of major shifts have occurred. Things may smooth out for moments in time, but they can't go back to the way they were. We need to embrace the reality that things have shifted and certain things are being exchanged as foretold by God through His Word, which is the one thing that will not shift. Amazingly enough, some people would rather see God's Word proven wrong so that things can go back to the way they were; rather than see the world shifted and changed to validate that God's Word, is accurate and unshakable.

When people neglect or reject the shift it creates a sense of fear, frustration, and confusion. In addition it creates a false sense of hope that things will go back to the way they were. Many people have forgotten that God foretold of all the shifting that would take place before His return. The great news is ... As God is finishing up the process of allowing the world to Shift; He is beginning to allow His own shifting to take place. The fact that change is happening is true from both a worldly perspective and godly perspective. We do not have to settle for just the negative shifts, but we all receive the benefits and opportunities to participate in the positive shifts.

Below are a few of the forecasted things that would shift or be exchanged; Isaiah 5:20 states that some would call good - evil and evil - good; Matt. 24:10 states that hatred for one another would shift and increase in the world; Matt. 24:12-13 states that love of many people would shift and decrease; II Tim 4 states that faith would shift and decline within people; Matt. 24:11 states that good preachers would shift and false preachers would increase; II Thes.2:7 states that obedience would shift as rebellion increases; II Thes. 2:9-12 states a shift in that satanic powers would increase; Hebrews 12:25-16 states that heaven and hell would shift and or be shaken; Daniel 12:4 states that knowledge and travel would shift and increase; Matt. 24:7 states that earthquakes would shift and increase by happening in various places.

I think you get the point that ‘shifts are occurring.’ We need to learn to balance the shifting by exercising our God given faith and confidence that God is in ultimate control. The reason many people have been caught off guard is that the shifting has occurred so subtly that a person needed to have their spiritual ears continually in-tune with what God was doing; thus the reason Jesus warned ‘He that hath an ear let him hear what the spirit says to the church.’ Rev 2:29; 3:6,13,22.

All the negative news of shifting is disturbing and overwhelming and is the very reason Jesus warned that people’s hearts would fail them for fear; Luke 21:26. As I have already stated; that in addition to the negative shifting there is a positive shifting that is occurring. This positive shifting can work in our favor and help us in difficult times. Just how this happens may be difficult to comprehend, but let me try and explain through the following example.

The recent collapse of the financial markets has been a major shift that has forced people to believe the money is lost or gone. However, the reality is that no money has been lost; the money is still located some where in the world, but in different places. In other words a major shift has occurred. I do recognize that some money has been falsely reported, but the fact remains none of the money that really existed has been lost. In fact the United States Government has now produced billions of additional dollars; adding to the total amount of money that is available. The difference is; where did the money shift too? God is re-aligning the very monetary system right in front of people’s eyes. He is shifting things for many different reasons, with the main reason being ... He must show humanity that our intellect, reason, greed, and materialism are far inferior to his ways. This is why Jesus states ‘I thank you God for hiding these things from the wise and prudent, but have revealed them unto babes. (Matthew 11:25).

I don’t know about you, but I am tired of leaning on humanity’s recent “guessing” on what is happening and desire to get within in the right circles of influence that God is shifting His influence toward. If I open my ears and listen to God’s shifting, I just may see His heavenly and eternal blessings that are being shifted and properly aligned for His choice servants.

During the next few months I will be sharing more information on ‘The Shifting Process’ and that the major shifts and exchanges are happening right before our very eyes. Stay-tuned for The Shifting Process – Part two.
